R&D RXT, GTX155/185/215 FILTER KIT

The R&D RXT high performance "supercharger" air intake/filter kit will eliminate power robbing air intake restriction caused by a long intake tube design and promote

a noticeable bolt of low and mid range acceleration and boost top end performance 1 - 1.5 mph! The kit features are the short intake tube design and the huge (largest in the industry) filter element. The "supercharger" power plenum filter is coupled up to a rubber mounted, precision CNC formed 60/61 aluminum constructed short intake track runner tube. The new R&D "supercharger" filter kit will allow your 1500 cc Sea Doo 4Tec "supercharged" rev up an additional 100 plus RPM's. The filter kit installs very easily in 10-20 minutes, and has provisions in the filter to install the OEM crankcase ventilator.

Sea Doo	Part No.
RXT (For 185 & 215 HP Engine), GTX Supercharged	203-95003
GTX 4-TEC N.A. (155 HP Engine)	203-95002

R&D SEA DOO RXP 215 POWER PLENUM FILTER KIT

A hot rod should run and sound like a hot rod! The new

R&D RXP Power Plenum Air Filter Kit will get the job done with definite noticeable increase in throttle response and acceleration, as well as increase RPM's between 50 and 100! R&D Power Plenum Filter Kits have been dyno tested and race proven to add 3 to 5 horsepower on stock four stroke 1500 cc engines! High performance four stroke guru's have dyno tested the R&D Power Plenum Air Filters to over 280 horsepower! The R&D RXP Power Plenum Filter Kit gives the RXP 215's engine a high performance racing look, sound, and performance without sacrificing an ounce of reliability!

Sea Doo	Part No.
Sea Doo RXP (215 HP Engine)	203-00215

R&D RXP-X/RXT-X 255 POWER PLENUM FILTER KIT

The R&D RXP-X and RXT-X High Performance Power Plenum Air Filter Kit was designed and developed exclusively for the new Sea Doo RXP-X and RXT-X 255 H.P. 4Tecs new high

flow intake system design. The R&D filter kit will unleash restricted low-end, mid-range and peak horsepower trapped in the O.E.M. air filtration system and intake ducting by relieving the air intakes main restriction. The new R&D Filter Kit installs in place of the O.E.M. main air box plenums restrictive air intake cover. Replacing the O.E.M. air box intake cover with the R&D Filter offers a very economical way to improve airflow CFM at a fraction of the cost compared to other aftermarket kits. Sounds good, looks great, saves cash and will install in minutes. The R&D Filter Kit is easy to remove for dealer maintenance visits.

Sea Doo	Part No.
R&D RXP-X/RXT-X 255 Power Plenum Filter Kit	203-00255

RIVA RXP/RXP-X RXT/RXT-X/GTX-SC POWER FILTER KIT

Delivers greatly improved acceleration and a 1-2 mph (150-200 rpm) top speed

increase by replacing the restrictive stock intake system. The Power Filter feeds your supercharger with a steady diet of cool air via a 3" diameter intake duct and oversized K&N filter element. Ducting is precision formed from a race proven composite that will not conduct heat to incoming air. Installs securely via a silicone coupler and sturdy bracket. Includes pre-filter element.

NOTE: It will be necessary to upgrade your stock pump impeller to a steeper pitch when using our Power Filter Kit. Sea Doo and RIVA both strongly recommend the use of premium octane (91+) pump fuel in your Supercharged watercraft.

Sea Doo	Part No.

RIVA RXP PRO-SERIES POWER FILTER KIT

The Pro-Series Power Filter is

a race-bred air intake system that draws cool air from outside your engine compartment delivering incredible performance and eliminating power-robbing heat intake. Air enters the system under seat through a billet aluminum intake flange equipped with a water-repellent pre-filter. Precision formed ducting attaches to supercharger via a large 4" adapter. Kit includes a complete oil catch can/breather system that keeps hot oil vapor and crankcase fumes from entering your engine's air intake. Also contains two Flow-Rite® water-repellent vents for improved ventilation of engine compartment through engine cowling.

NOTE: This product is not designed for heavy surf use due to possibility of water ingestion. We recommend RIVA Power Filter part#RS13050-YEAR for this application.

SEA DOO POWERSHOT ADJUSTABLE FUEL TUNER

The R&D Powershot fuel injection tuner will deliver increased horsepower, acceleration, and stronger mid-range performance by delivering a higher performing air to fuel ratio (A.F.R.) to the engine. Many of today's

high performance fuel injected four stroke muscle craft have a lean A.F.R. R&D Performance has tested, documented, and analyzed the O.E.M. fuel maps on every current fuel injected four stroke watercraft, and pre-programmed and coded the new R&D Powershot fuel injection control module to safely alter the O.E.M. fuel map to a higher performing and safer A.F.R. (richer). More horsepower, greater acceleration and stronger mid-range are the result when the proper A.F.R. is achieved and is tuned for optimum performance.

The R&D Powershot is fully adjustable on the fly (with the engine running, observed and tuned while riding), and will accommodate a wide range of adjustability to properly performance tune the A.F.R. for any combination of aftermarket parts. The R&D Powershot will add horsepower, reliability, and adjustability to any electronic fuel injected two or four stroke watercraft engine.

RXP/RXT CATCH CAN/OIL BREATHER SYSTEM

Easy to install catch can/oil breather eliminates power-robbing crankcase fumes and oil vapor from your engine's air intake. Increases horsepower by removing the engine's requirement to burn relatively non-combustible oil. Also improves intercooler efficiency by preventing the oil sludge coating that lowers thermal efficiency. Excess oil vapor is routed to our translucent catch can where it condenses and collects for occasional draining via integrated petcock valve. Kit included K&N breather and Sea Doo mounting bracket along with all necessary hardware & installation instructions.

RIVA RXP / RXT REAR EXHAUST KIT WITH STOCK INTERCOOLER SYSTEM

Kit allows removal of restrictive suppression system located between waterbox and hull exit. Improves engine performance by reducing back pressure and restriction. Strategically placed fitting injects water just before exhaust exit to suppress sound level. Includes custom molded exhaust tube, billet through-hull exhaust outlet and OE exhaust block-off along with all necessary mounting hardware and installation instructions. **Removal of O.P.A.S. and installation of RIVA Performance O.P.A.S. Block-off Kit (part # RS29050-1) is necessary to accommodate installation of RIVA Rear Exhaust Kit for all models (page 12).**

R&D EXHAUST MANIFOLD X-TENDER KIT

The R&D Exhaust X-Tender Kit allows the exhaust to be extended 1.5 inches which will move the water muffler back 1.5 inches creating enough room to be able to change out a supercharger (Hot) in 5 minutes. No more hassling with extremely hot exhaust pipes, water mufflers and V-band clamps! The X-TENDER kit installs easily using an additional V-band clamp. Install the R&D Exhaust X-TENDER kit in place and never hassle a supercharger change out again. Once installed and used you will wonder why the factory didn't build it this way! The R&D kit will install directly to all RXT/RXP/GTX supercharged model Sea Doo's using O.E.M. BRP hardware.

Description	Part No.
Exhaust Manifold X-Tender Kit RXP, RXT 215HP	613-95004

R&D RXP-X EXHAUST MANIFOLD X-TENDER / O2 SENSOR MOUNT KIT

The R&D High Performance Exhaust Manifold X-Tender with O2 Sensor Mount Kit is a creative and unique product that was designed and developed while testing the R&D Superclutch and new R&D High Performance Compressor Wheels. The Sea Doo supercharger and exhaust systems parts and "J" pipe are extremely difficult to get to and handle when they are extremely hot, and the exhaust systems "J" pipe that must be removed can be tricky on a cold engine. R&D needed to be able to remove and replace the supercharger in five minutes to be able to test products back to back in a timely manner, as well as the same day for accurate testing data. The R&D Exhaust X-Tender Kit allows the exhaust to be extended 2 inches which will move the water muffler back 2 inches creating enough room to be able to change out a supercharger (Hot) in 5 minutes. No more hassling with extremely hot exhaust pipes, water mufflers and V-band clamps! An additional bonus is the oxygen sensor mount incorporated into the X-Tender, allowing quick and easy installation of an AFR Gauge (Air/Fuel Ratio) for properly tuning the X power plant. The X-Tender kit installs easily using an additional OEM V-band clamp. Install the R&D Exhaust X-Tender kit in place and never hassle a supercharger change out again. Once installed and used you will wonder why the factory didn't build it this way! The R&D X-Tender is manufactured from the highest grade stainless steel exhaust material available. The R&D kit will install directly to all Sea Doo X supercharged models using O.E.M. BRP hardware. You will need to purchase an extra OEM V band clamp. One is not provided.

SEA DOO RXP RXP-X RXT RXT-X • INTERCOOLER

GEN-II

RIVA POWER COOLER KIT 215HP

Presenting the ultimate aftermarket intercooler system for the Sea Doo 215hp engine! The RIVA 'GEN-2' Power Cooler is our next generation intercooler system featuring a new "double wide" cooler element for maximum efficiency. Delivers an increase of 18 peak horse-

power over original intercooler providing arm-wrenching results on the water. The 'GEN-2' Power Cooler features a large, unrestricted core that exhibits minimal pressure loss. The cooling element is dramatically more efficient than the stock unit with exit temperatures averaging 50°F cooler than stock. This delivers cooler, denser air for increased performance throughout the RPM range. Includes integrated blow-off valve mount that will accept RIVA Blow-Off Valve kits (sold separately) for improved supercharger reliability and performance. Use of Blow-Off Valve also reduces supercharger clutch wear and eliminates heat soak in discharge tube or the buyer has the choice to purchase the RIVA Blow-Off Valve Block-off kit. Power Cooler Kit contains all necessary mounting hardware and installation instructions.

Requires use of RIVA Rear Exhaust Kit (RS15050-ET, RS15050-1) and RIVA O.P.A.S. Block-off Kit (Performance or Pro-Series • RS29950, RS29985, RS29050-1).

RIVA Blow-off Valve Kit Application Chart:

- 215hp Sea Doo Stage I & II: RIVA Performance Blow-Off Valve Kit (RS17080-BV-PF)

RIVA OEM INTERCOOLER UPGRADE KIT (255HP)

Riva intercooler Upgrade Kit for the new RXP-X & RXT-X relocates the original intercooler and

significantly improves efficiency of the system with upgraded components. Key benefits include:

- Relocation of original intercooler: By strategically moving original intercooler, we have greatly improved access to engine compartment. **Relocation also allows installation of key performance parts including RIVA Rear Exhaust Kit (RS15050-1) & RIVA Pro-Series Power Filter Kit (RS13056).**
- Precision formed aluminum tubing: Our high strength aluminum tubes are shorter than original to minimize boost loss. Also, the rigid aluminum will not swell under pressure like original soft rubber hoses providing improved throttle response.
- Integrated blow-off valve mount: **Intercooler tubing includes mount for RIVA Pro-Series Blow-Off Valve Kit (RS17080-BV-PS) or RIVA Blow-Off Valve Block-off Kit (RS17050-BVBO); both sold separately.** Kit includes sturdy aluminum intercooler mounting bracket, high strength mandrel bent aluminum tubing and all necessary mounting hardware & installation instructions. **Requires installation of RIVA Rear Exhaust Kit (RS15050-1) and RIVA Performance OPAS Block-off Kit (RS29050-1).**

SEA DOO RXP RXP-X RXT RXT-X • INTERCOOLER

R&D RXP/RXP-X/RXT/RXT-X GTX-SC SUPERCHARGER SURGE PROTECTOR KIT

The R&D Surge Protector Kit will significantly improve supercharger clutch and compressor wheel performance and reliability by eliminating compressor surge. Compressor surge is defined as the negative charge of pressure that causes turbulence in the supercharger that occurs during aggressive

of off-throttle operations. When the throttle valve is abruptly closed at high rpms, the engine decelerates quickly down from 8,000 rpms, however the supercharger is compressing air (creating boost) as the supercharger has to decelerate from 42,000 rpms. This turbulence is the primary cause of undue stress on the supercharger clutch system and its components. The R&D surge protection kit utilizes an automotive vacuum assisted Bosch pressure blow off valve that automatically releases the unwanted intake pressure between the closed throttle valve and the supercharger. As soon as the throttle valve is opened, the blow off valve immediately closes and the compressor can supply its full boost potentials to the engine.

Manufactured from high-temperature silicone hose with an integrated molded riser for the blow off valve to function without hindering intake flow or velocity. The R&D kit installs easily in place of the OEM rubber intake elbow joint. This kit is a very necessary and cost effective up-grade for all Sea Doo supercharged watercraft. Kit comes completely assembled with silicone elbow, blow off valve, R&D B.O.V. filter, mounting hardware and instructions.

Description	Part No.
A. R&D RXP 215, RXT 215, GTX-SC SC Surge Protector Kit	613-95003
B. R&D RXP-X 255, RXT-X 255 SC Surge Protector Kit	613-95255

R&D RXP-X/RXT-X 255 SILICONE INTAKE HOSE KIT

The R&D Supercharger High Performance Hose Kit was developed while testing the R&D Monster Compressor Wheel Kits. Higher boost pressures create higher intake air temperatures of up to 235 degrees. The O.E.M. standard black rubber hose and standard hose clamps just do not hold up to the pressures and heat like high quality, high temperature silicone hose and high strength stainless steel style hose clamps. The R&D "Blue Hose" is manufactured from high performance, turbo charger quality high-temperature silicone.

Sea Doo	Part No.
R&D RXP-X/RXT-X 255 Silicone Intake Hose Kit	613-95256

R&D RXP-X/RXT-X BILLET SURGE PROTECTOR VALVE & FILTER KIT

The R&D Billet Surge Protector Valve and Filter Kit is now available. The billet aluminum

CNC machined valve is an optional bolt-on replacement for the plastic Bosch valve used in the R&D and other aftermarket surge protection systems. The o-ring sealed billet design offers improved consistency and performance in higher boost pressure applications.

Description	Part No.
R&D Billet Surge Protector Valve & Filter Kit	613-95260
RXP-X/RXT-X 255	

RIVA GEN-2 SUPERCHARGER IMPELLER 215HP

Presenting the ultimate (drop-in) performance supercharger impeller for the Sea Doo 215hp engine! Working closely with Vortech

Engineers, we developed the next generation high-performance replacement impeller that delivers 9lbs of boost @ 8,100rpm in RIVA Stage II applications. Produces more horsepower and torque throughout the RPM range resulting in excellent acceleration & top speed. Investment cast from an extremely strong, lightweight proprietary aluminum and CNC machined to ensure exact tolerances. All new blade design is optimized aerodynamically and precision balanced to deliver smooth operation. Installs easily into stock supercharger housing with no additional modifications required. Includes replacement mounting nut and detailed installation instructions.

Description	Part No.

RXP-X/RXT-X 255HP MONSTER POWER SUPERCHARGER IMPELLER WHEEL

The R&D engineering staff has developed a complete line of supercharger impeller wheels. Each Monster Impeller wheel will come complete with a statistical data sheet graphing the RPM/boost pressures that the wheel produces, eliminating the mystery behind the supercharger.

BALANCING INFORMATION

R&D Monster Compressor Wheels for 255 H.P. 4 Tec engines have been precision mass center balanced in the preliminary casting/machining operations process, and precision two plane balanced after the final machining processes. The balance tolerances on the R&D Monster Wheels are held to a much stricter and tighter tolerance over O.E.M. or aftermarket wheels. The R&D precision two plane balanced compressor wheels will perform perfectly and smoothly at 180,000-200,000 rpm's as the wheels have been blueprinted and balanced to stringent turbocharger specifications, even though the wheel will only spin at 46-48,000 rpm's in the Rotax engine at 8,000 crankshaft rpm's. R&D's higher balancing standards will add significantly to the service life and performance of Rotax's vulnerable and temperamental clutch system and will significantly increase bearing life, promote better clutch performance, extend clutch life through decreased clutch slippage, and increase horsepower performance. **Available summer of 2009.**

Description	Part No.
R&D C1 Monster Charger Wheel	613-94012
R&D C2 Monster Charger Wheel	613-94014

R&D SUPERCHARGER REBUILD TOOL KIT

R&D has designed a custom tool kit that is essential in the rebuilding process of the Sea Doo Supercharger. All tools are specific in application and are cnc machined to ensure a precision job.

Description	Part No.
185 Horsepower Tool Kit*	613-96001
215 Horsepower Tool Kit*	613-96002
A. Supercharger Holder Tool	613-96005
B. Bearing Puller/Installer Tool	613-96006
C. 4-Pin Socket	613-96007
D. Seal/Bearing Retainer Torx Wrench	613-96008
E. 215HP 16 Tooth Drive Gear Tool	613-96016
E. 185HP 17 Tooth Drive Gear Tool	613-96017
F. 185HP Clutch drive / Lock Washer Tool	613-96018
F. 215HP Clutch drive / Lock Washer Tool	613-96019

*NOTE: Kit comes with a S/C holder, bearing puller/installer tool, drive gear tool and clutch drive/lock washer tool.

RIVA SEA DOO SUPERCHARGER SHAFT HOLDER TOOL

Servicing your supercharger in a snap. Ergonomically designed billet handle, heat treated tool-grade steel to resist wear and to prevent flexing.

Description	Part No.
RIVA Sea Doo Supercharger Shaft Holder Tool	RS1750-ISH-949

RACE TECH RXP-X/RXT-X 255HP 137MM BILLET SC IMPELLER WITH 3MM SPACER

Engine-Tech supercharger impeller with spacer for the Sea Doo 255 hp X models. This CNC machined impeller makes 12.5+ lbs of boost at 8100 rpm and an incredible 13.5+ lbs at 8500 rpm! No other drop in impeller even comes close. It is made from heat treated 7075 aluminum and hard anodized for strength and corrosion resistance.

Description	Part No.
137MM+3drop in SC Impeller with Spacer	ET137+3SCI

RACE TECH 68/140 EXTREME SUPERCHARGER

E-Tec 68/140 Supercharger. This is the most powerful supercharger available today. 15.5 to 16 lbs of boost @ 8700 rpm. This is a ready to use complete charger for all Seadoo 4 tec supercharged watercraft. Includes billet 140mm E-Tec impeller with spacer, CNC machined housings, 2008 shaft kit with BT Tech 86000 rpm bearings and titanium carbonite coated clutch washers. Assembled with preset clutch slippage.

Description	Part No.
Race Tech 68/140 Extreme Supercharger	ET68/140SC

RACE TECH 4" AIR INTAKE BILLET VELOCITY STACK

Race Tech's new billet velocity stack for the seadoo superchargers that allows the user to adapt a larger 4" air intake.

Description	Part No.
Race Tech 4" Air Intake Billet Velocity Stack	ET-VSS

SEA DOO RXP RXP-X RXT RXT-X • SUPERCHARGER

R&D's C1, C2 and C3 Monster Compressor Wheel for all Sea Doo 215 4 Tec engines will deliver "horsepower you can feel" with instant throttle response, improved mid range acceleration, and increased top end performance. The R&D Monster Wheel replaces the stock wheels inefficient long inducer, 6 blade design, with a modern low profile, high flow 8 blade w/splitter design.

			
	R&D KIT/MODEL	STAGE C1	STAGE C2

Airflow	3.5-3.75 pound per minute gain	4 pound per minute gain
Horse Power	35hp plus increase 3mph plus gain	40hp plus increase 3mph plus gain
Intercooler	Utilize OEM "X" or Aftermarket Intercooler Kit	Utilize OEM "X" or Aftermarket Intercooler Kit
Gasoline	91 Octane Pump Gas	91 Octane Pump Gas

*** For both the Stage C4 and Stage C5 kits:**

R&D suggests that the "X" or aftermarket intercooler kits be used as high boost pressures and high air volumes can dead head into the O.E.M. intercooler causing compressor surge. For closed course or endurance racing use using the rotax racing E.C.U. where rpms are between 8250 and 8500, R&D recommends the use of the X model or aftermarket intercooler system. Tests have proven the O.E.M. intercooler to have restrictions at 23.5 pounds of air, or 9.5 pounds of boost at sea level and 60-80 degrees.

SEA DOO RXP RXP-X RXT RXT-X • SUPERCHARGER

RIVA HEAVY-DUTY 04-07 RXP/RXT/GTX SC SUPERCHARGER CLUTCH WASHERS

These are direct replacements for the original clutch washers that are prone to fail on modified engines. Precision machined from tool grade steel to increase durability. Will not break up and damage engine at end of service life.

Description	Part No.
Riva Clutch Washers '04-05 RXP/RXT/GTX SC	RS1751-HDW-945
Riva Clutch Washers '06-07 RXP/RXT/GTX SC	RS1751-HDW-946*

**Note: RS1751-HDW-946 must be used with 2006 style Sea Doo OEM Supercharger shaft Part #420881946*

RIVA HEAVY-DUTY 08 RXP-X/RXT-X 255HP 08 RXP/RXT/GTX-SC 215HP SUPERCHARGER CLUTCH WASHERS

These are direct replacements for the original clutch washers that are prone to fail on modified engines. Precision machined from tool grade steel to increase durability. Will not break up and damage engine at end of service life.

NOTE: BRP recommends that you replace the Supercharger shaft/clutch assembly when servicing your supercharger. Order part# 420881100 ('08 spec). Requires '08 spec Heavy-duty Clutch Washers (part# RS1751-HDW-948).

Description	Part No.
Riva Clutch Washers '08 255hp RXP-X/RXT-X & 215hp RXP/RXT/GTX-SC	RS1751-HDW-948

R&D SUPERCHARGER HIGH PERFORMANCE CLUTCH WASHER KIT

The R&D High Performance Supercharger Clutch Washer Kit is a direct replacement upgrade for the very fragile factory BRP O.E.M. ceramic clutch washers that are and prone to fracture and disintegrate, which can result in costly engine damages. The R&D High Performance Clutch Kit is manufactured from a high strength, wear resistant bronze alloy material that has a yield strength of 32,000 psi plus, and a Rockwell hardness of B95. The R&D Superclutch was designed to improve reliability without disintegrating under the Sea Doo superchargers high rpms, heat and is designed to not only but also increase boost by decreasing clutch slippage.

Description	Part No.
R&D Clutch Washer Kit 06-07 RXP/RXT 215*	613-95001

**NOTE: (or any supercharger rebuilt or warranted with a BRP rebuild kit part #420881946 or #420881947) NOTE: BRP#420881946 is for 215 engines, and #420881947 is for 185 engines.*

**NOTE: BRP supercharger rebuilt kit installed, upgraded, or warranty updated with the BRP rebuild kits #420881947 (for 185) or #420881946 (for 215), these upgraded superchargers will require R&D PART # 613-95001*

R&D Clutch Washer Kit 08 RXP/RXT 215HP & RXP-X/RXT-X 255HP	613-95006
---	-----------

RIVA CERAMIC SEA DOO SUPERCHARGER BEARINGS

These precision-built Ceramic S/C Bearings provide greatly reduced heat build up and less rolling resistance. Superior surface finish of the ceramic balls reduces friction and significantly increases bearing life. These are a great upgrade when replacing your clutch washers or rebuilding your supercharger. Set includes two bearings & complete installation instructions. Made in the USA.

Description	Part No.
Riva Supercharger Bearings All 185HP & 215HP Sea Doo Supercharged Engines	RS1750-CB-420

RXP-X/RXT-X SUPERCHARGER BEARING KIT

The R&D Supercharger Bearing kit is a precision OEM replacement bearing. Bearing changes are recommended when rebuilding the supercharger or changing the clutch washers. **Available summer of 2009.**

Description	Part No.
R&D RXP-X/RXT-X Supercharger Bearing Kit	613-95010

RXP-X/RXT-X SUPERCHARGER 16 TOOTH GEAR

Normal clutch wear with OEM and aftermarket Steel clutch washers will typically have unwanted galling on the clutch surfaces of the gear. The new R&D OEM Replacement supercharger gear (not available from Sea Doo) enables the supercharger clutch assembly to be rebuilt to OEM specifications without the expensive purchase of the entire Sea Doo supercharger shaft assembly rebuild Kit. All that is needed to rebuild the supercharger clutch back to new condition is the R&D High Performance clutch Washer Kit and the R&D 16 tooth Gear. **Available summer of 2009.**

Description	Part No.
R&D RXP-X/RXT-X Supercharger 16 Tooth Gear	613-95016

R&D RXP SUPERCHARGER SLEEVE

The sleeving up of the diameter of the Supercharger enables a 3.5" or 4" intake filter system to be utilized. The larger intake increases cubic air volume as well as decreases air inlet restriction. A win win, supercharge your supercharger and give it more air! Available in 3.5" and 4" diameters.

Description	Part No.

RIVA SEA DOO VALVE TRAIN UPGRADE KIT

Our Valve Train Upgrade Kit increases the reliability of your modified engine by reducing the possibility of valve float at high rpm. Includes lightweight, precision-machined titanium valve retainers, racing valve springs, base washers and OE rocker arm shaft bolts that must be replaced during installation.

Description Upgrade Kit, Valve Train, SD RXP/RXT/GTX **Part No.** RS19050-VTU

RIVA SEA DOO PRO-SERIES ECU

Our Pro-Series Racing ECU delivers a huge performance advantage to the Sea Doo 255 & 215 Supercharged Intercooled engines. ECU is calibrated for Stage II & III applications and must be used with RIVA Pro-Series 50lb Fuel Injector Kit, RIVA Valve Train Upgrade Kit and 91+ octane pump fuel. Plugs directly into factory wiring harness in place of stock ECU. Key benefits include:

- * **Performance Fuel Mapping:** Delivers optimal fuel required for your specific level of modification (Stage II or III) based on boost pressure.
- * **Performance Timing Curves:** Special racing curves produce more power throughout the RPM range. Timing is automatically adjusted based on sensor input.
- * **Rev Limiter Increase:** Stock rev limit has been increased from 8,300 to 8,650 RPM. With our recommended pump combination, engine RPM can be run higher producing more boost pressure and horsepower.
- * **Practice Key:** In addition to normal "full power" key, a 60 MPH "practice" key can be programmed by BRP dealer BUDS system to limit speed for race-course practice. ECU does not support original "learning" key mode.

* **Retains Engine Diagnostic & Primary Safety Functions:**

- 1) Provides diagnostic information displayed on dash instrumentation along with more detailed data through BRP dealer B.U.D.S. system.
- 2) Sensor input is monitored for abnormal readings and will react by triggering warnings and/or limp mode.

**NOTE: This product is for competition use only. Must be used with RIVA Pro-Series 50lb Fuel Injector Kit (part #RS12050-I-KIT-50 • page 3), RIVA Valve Train Upgrade Kit and 91+ octane pump fuel. Unit must be activated in watercraft by an authorized BRP dealer using BUDS system. Activation by RIVA Racing available with customer supplied throttle body. Installation of this racing product will void BRP factory warranty.*

R&D SEA DOO AQUAVEIN SCOOP GRATE

R&D's new Aquavein Scoop Grate kit that is now available for Sea

Doo's new supercharged model is an absolute necessity to tame the cavitation that is created by Sea Doo's new supercharged 1500cc 185hp beast of an engine! Zero cavitation and quicker acceleration from 0-30mph is what you can expect from R&D's new 2 bar, full winged design. Improved low and high speed cornering, greater straight line stability, and an increase of .50mph in the speed department! The new R&D 4TEC Aquavein Grate installs easily in minutes and has been tested extensively with both the OEM impeller and the new R&D/Skat-Trak 16/21 3 blade impeller. The R&D/Skat-Trak impeller and Aquavein combination nets a bolt on performance boost of a full 1.5mph gain in top speed!

Description	Part No.
Sea Doo RXT Aquavein Scoop Grate	113-95000
RXP 215	113-95001
RXP 215 Pro Aquavein & Girdle Kit	113-95002

R&D SEA DOO RXP AQUAVEIN GIRDLE KIT

The R&D RXP Aquavein Girdle Kit was designed and developed to add two extra 6mm bolts to the back end of either an R&D Aquavein or OEM grate for a much higher degree of security against pulling inserts out of the OEM PVC plastic pump shoe! A must for competition use!

Description	Part No.
Sea Doo RXP Aquavein Girdle Kit	123-10010

R&D RXP-X, RXT-X AQUAVEIN INTAKE GRATE

R&D's exclusive dual patented technology that's incorporated into the revolutionary Aquavein will enhance the X beast. Blow through low and high-speed turns with confidence and chew up rough water conditions with a new found 3 mph top speed gain. Quicker acceleration and straight-line stability are also maximized. The new X Sea Doo, equipped with an R&D Aquavein cracks the glass on the fun meter!

Description	Part No.
R&D RXP-X/RXT-X Aquavein Stock/Recreation	113-95004
R&D RXP-X/RXT-X Aquavein Off-Shore/Closed Course	113-95007

WORX MAXILOADER INTAKE GRATE

The WORX Maxiloader is the first mod anyone should do to their PWC. Among the benefits you'll receive are; reduced porpoising, no or minimal top speed loss (up to 3mph gain in choppy conditions!) and greater control & turning capability.

Description	Part No.
GTX 4Tec 02-05/GTX SC 03-04, RXT 215 (05-08) Intake Grate	WR221
Worx RXP 215 (04-08) Intake Grate	WR223
Worx RXP-X/RXT-X 255HP Intake Grate	WR229

RIVA TOP-LOADER INTAKE GRATES

The Riva top-loader intake grate features a unique tapered wing design that eliminates prop spin and cavitation while delivering enhanced acceleration and 2mph additional top-speed. Deep side rails improve stability and handling. Durable black race coating protects from corrosion. Race Legal.

Description	Part No.
RXP 215 (04-08)	RS22050
RXT 215 (05-08)/GTX-SC (03-04)	RS22055

GTX 4-TEC

RXP

SEA DOO RXT 2.5 DEGREE NOZZLE WEDGE KIT

The R&D 2.5 degree reduction nozzle wedge kit for the new Sea Doo 4-TEC was designed, developed and tested extensively in all types of flat and rough water conditions to ensure that there would be no handling performance compromises. Most brands of watercraft have some form of V.T.S. (variable trim system) including other model Sea Doo's. Why the

4-TEC doesn't have a trim system is a mystery. Extensive testing has led our development team to wedge the reduction nozzle up 2.5 degrees which will inexpensively give your 4-TEC better handling everywhere and provide a boost of 1 to 2 mph in top speed performance. The billet aluminum CNC machined 2.5 degree reduction nozzle wedge kit was designed to work with the OEM O.P.A.S. system and installs easily in 15 to 20 minutes with R&D's "easy install" directions.

Description **Part No.**

R&D SEA DOO RXP/RXT 215/255 AUTO TRIM KIT

The R&D RXP/RXT 215/255 Auto Trim Kit was developed to override the OEM VTS System with a fully adjustable and fully automatic trim system. The R&D Auto Trim automatically drops a rider preferred adjustable 2-8 degrees. For long

straight rides install the R&D VTS/Holeshot Driver Rod (Pt. #163-21503), which works in conjunction with the R&D Auto Trim to electronically override the Auto Trim back to the OEM VTS Nozzle angle trim settings! The combination allows the best of both worlds for recreational and closed course riding!

Description	Part No.
Sea Doo RXP 215 Auto Trim Kit	163-21502
Sea Doo RXT 215/GTX 4-TEC Auto Trim Kit	163-95003
Sea Doo RXP-X 255/RXT-X 255 Auto Trim Kit	163-25500

R&D RXP/RXT 215/255 HOLESHOT ROD

The R&D Holeshot Rod is designed to work in conjunction with the R&D Auto Trim Kit. The Holeshot Rod mounts to the VTS system and allows maximum

nozzle drop when the nozzle is straight for improved holeshots.

Description	Part No.
R&D RXP/RXT/RXP-X/RXT-X Holeshot Rod	163-21503

RXP PRO STEERING NOZZLE

The R&D RXP 215/255 Pro Series Steering Nozzle was developed to replace the OEM steering nozzles oval and stepped inner design shape with a race proven high performance round Venturi design. Improved acceleration, cornering,

and top speed performance! The new R&D RXP 215/255 Nozzle also incorporates a cast in boss for the R&D Auto Trim Kit Option.

Description	Part No.
Sea Doo RXP 215/RXP-X 255/RXT 215/RXP-X 255 Pro Steering Nozzle (+15mm)	163-21500

R&D RXP-X/RXT-X 84MM REDUCTION NOZZLE KIT

The R&D RXP-X/RXT-X 84mm Pump Reduction cone will reduce the venturi size from a short O.E.M. 87mm large bore design to a plus .750 over stock venturi length with a final venturi size of 84mm. Increased hook up, stronger

acceleration and mid range, improved top speed performance.

Description	Part No.
R&D RXP-X/RXT-X 84mm Reduction Nozzle Kit	173-25584

RXP/RXT PRO-SERIES REDUCTION NOZZLE

Our Pro-Series Reduction Nozzle is ideal for tuning your Sea Doo pump combination to maximize performance.

Nozzle exit diameter can be easily

changed via interchangeable ring system. Nozzle includes three precision-machined stainless steel rings in 81, 82 and 83mm.

Additional ring sizes available (RS23050-NR-SIZE) 80, 81.5, 82.5 and 84mm.

Description	Part No.
Venturi Nozzle w/3 Rings, SD RXP 215/RXP-X 255	RS23050-N
Venturi Nozzle w/3 Rings, SD RXT/05-07 GTX-SC	RS23051-N

THROTTLE CONVERSION KIT, ALL 4-TEC 4-STROKE RXP - RXT - GTX - GTI

Quickly and easily transform your Sea Doo thumb throttle into a more natural finger throttle with our Throttle Conversion Kit. Aluminum extensions insert directly into bar ends adding 1-3/4" to each side providing more turning leverage and a more natural riding position. Molded

steering pad end cap mates to finger throttle for a clean factory look. No modifications to existing handlebars necessary and minimal downtime.

Description	Part No.
For stock grips. All 4-TEC 4 stroke 02-07 RXP/RXT/GTX/All GTI 4-TEC	RS2455

RIVA RACING BILLET FINGER THROTTLE FOR SEADOO

Specifically designed to match throttle travel of SeaDoo 4-Stroke PWC.

Direct replacement for bulky OEM throttle on X-Models and can be used with aftermarket bars on other 4-tec applica-

tions. Adjustable throttle angle & unique trigger design keeps the trigger at the tip of your finger throughout the throttle range for reduced arm pump & superb throttle control. Delrin bushings eliminate play common in OEM throttles and provide smooth actuation. All stainless hardware at hinge point eliminates corrosion and play. No "C" clips used. Use with OEM adapter on X-Models or use aftermarket adapter (sold separately) for other 4-Tec applications.

Description	Part No.
Riva Racing Billet Finger Throttle for SeaDoo	RS24010P
*available in clear polished finish only	

HANDLEBAR COVER CAP FOR SEA DOO 4-TEC - RXP RXT - GTX - GTI

SPEED MAGIC "X-MOUNT" STEERING HEAD

The Speed Magic "X-Mount" for the RXP-X and RXT-X improves handling by lowering the steering head 85mm lower than the stock position and moves the rider forward for a more aggressive position. Regular and Fat Bar applications.

Description	Part No.
Speed Magic Steering Head (Standard Handlebars)	SE-027015
Speed Magic Steering Head (Fat Bars)	SE-027015F

DO SPEED SPACER AND MOUNTING KIT FOR UMI RXP-X/RXT-X STEERING SYSTEMS

Do Speed has developed this spacer and mounting bracket specifically to be used in combination with a UMI steering system on a RXP-X or RXT-X. The spacer prevents water from entering the engine compartment and the bracket creates a clean and safe installation of the OEM Sea Doo warning system signal.

Description	Part No.
DO Speed Spacer and Mount Kit for UMI RXP-X/RXT-X Steering System	D-X-P

Aftermarket Bars Installed - OEM Protective Cover No Longer Fits

Safety Switch Mounting Bracket

HANDLE BAR STEERING MOUNT COVER AND SAFETY SWITCH BRACKET

When you install aftermarket handlebars on your Sea Doo using the OEM steering system the OEM pad cover will no longer fit. AP Designs has developed this new pad to allow for the bars to fit properly and protect you while riding your Sea Doo as well as to cover the ugly cast steering system. Also developed in conjunction with this cover is a safety switch mounting bracket.

PERFORMANCE PRODUCTS

SKAT TRAK IMPELLERS FOR SEA DOO PWC

Increased acceleration and top speed gains are only a few of the advantages of upgrading to a Skat-Trak impeller.

On the New 3-Blade Swirl Super Pro Impeller

Skat Trak recommends:

- 13/17 for a Stock RXT application
- 13/17 for a RXT Stock Stage 1 application
- 13/18 for a RXT-X Stock Stage 1 application
- 13/18 for a RXT Stage 2 application
- 13/18 for a RXP Stock Stage 1 application
- 14/19 for a RXP-X Stock Stage 1 application
- 14/19 for a RXP Stage 2 application
- 14/20 for a RXP Stage 3 application
- 15/20 for a RXP 300hp and up application
- 15.5/21.5 for a RXP 315hp and up application

Skat Trak Impellers do not include a seal, Hot Products recommends SLA012 sold separately.

R&D RXP PUMP CONE KIT

The R&D RXP Pump Cone Kit is an inexpensive and creative bolt on part that adds extended length over the O.E.M. plastic pump cones length, which will reduce cavitation while adding additional pump thrust. Spacing the pump cones length will add to top speed while keeping the engine rpm's stable and out of the rev limiter! Precision cast aluminum, CNC machined, and o-ring sealed for leak free pump bearing protection.

Description	Part No.
RXP Pump Cone Kit	133-02550

RIVA PUMP EXTENSION KIT FOR RXP & RXP-X

Riva's race bred pump extension kit increases top speed (1~2mph), hook-up and drive in all riding conditions. Billet aluminum spacer installs between transom plate and pump housing extending the intake tract 50mm delivering greatly improved pump efficiency. Precision machined extended stainless steel wear ring provides improved performance through tighter tolerance and increased durability. Supplied extended billet drive shaft is CNC machined to exact tolerances and heat treated to increase strength. Includes extended VTS Rod, stainless steel steering and reverse cable extensions, and detailed installation instructions. This modification is a must for all forms of competition including closed course, off shore and drag racing.
