New Products from R&D

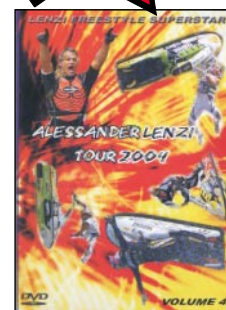

162-00110

VX 110 Pump Shoe Seal Kit

The R&D Pump Shoe Seal kit for the VX 110 is now available. The four piece Seal Kit stuffs up the unwanted cavities in the pump shoe and the OEM intake grate that aid in producing cavitation. This kit allows you to seal up the area between the intake grate and pump shoe, which will reduce cavitation and increase pump efficiency and performance.

VX 110 Performance Air Filter Kit

The new R&D Performance Air Filter for the VX 110 is now available. The R&D High Flow Filter design replaces the restrictive stock filter inside the stock air box, allowing improved air flow. Why? Because more air flow means more power and improved performance.

59-2046
