Ultra Grip Material

Sure Grip Material

## ULTRA GRIP SEAT COVERS & SURE GRIP SEAT COVERS

**ULTRA GRIP** — Our Ultra Grip material is a rubberized, waffle patterned material designed for the recreational and racing enthusiast. It provides exceptional grip without sacrificing rider comfort. Because of its rubberized nature, the rider can ride comfortably in swim trunks and still expect exceptional traction. This material also provides excellent grip for racers and riders wearing wetsuits.

**SURE GRIP** — Our Sure Grip material is an aggressive material designed for watercraft racers. It is extremely durable and provides exceptional grip for racing applications. We recommend that riders wear a wetsuit when using a Sure Grip seat cover.

## HYDRO-TURF MATS

Hydro-Turf® is a leading manufacturer of performance traction mats and seat covers. Hydroturf offers some of the best looking, best gripping ride mats on the market. Superior traction grooves and excellent durability are the choice for amateur and professional riders looking to upgrade or replace their existing traction mats. Our jetski and personal watercraft upholstery kits are designed to replace worn or damaged seats and provide the rider superior traction and resistance to elements.

### HYDRO-TURF HOOD SEALS

Quality replacement foam hood seal gaskets.

Description	Part. No.
Kawasaki JS440/550	TS55
Yamaha Super Jet	TS56

### HOOD Baffle INSERT FOR FACTORY PIPE SXR

Use this composite drop in baffle insert to cover the area removed during installation of the factory pipe dry pipe for Kawasaki 800SXR.

Description	Part. No.
Hood Insert	KASRC0608

### R&D SPACE MAKER HOOD INSERT

This insert allows you to remove a portion of the stock hood inner liner and foam, replacing it with the Space Maker Hood Insert creating the extra clearance needed to run the Super Jet Dry Pipe.

Description	Part. No.
Yamaha Super Jet	652-70110

### STORAGE COMPARTMENT & SEAT LATCH ASSEMBLY FOR SEA DOO

Economy replacement of plastic latch assembly used in most Sea Doo watercraft.

Description	Part. No.
Seat Latch Assembly	011-800
Front Compartment Latch	011-805
RX, RXDI, GTI LE, GTI XP 03-04	

### RIVA STX-F MIRROR BLOCK-OFF KIT

Lightweight aluminum block-off plates fill openings left when mirrors are removed for competition. Includes reverse lever block-off.

Description	Part. No.
Mirror Block-Off	RK5-STXF-MB

### RIVA RXP HIGH FLOW HOOD KIT

Integrated ducting delivers increased cool air to engine compartment improving performance.

Description	Part. No.
High Flow Hood Kit	RS5-0050

### SXR BOW EYE COMPOSITE FRONT COVER

What was Kawasaki thinking? Tired of putting your SXR on the trailer backward so you can actually haul it on your stand-up trailer with your normal bow coupler? Blowision has the answer.

Description	Part. No.
SXR Bow Eye Composite Front Cover	KASRC0840

### SX-R BILLET HOOD HOOKS

Introducing our Billet Front Hood Hooks for the SX-R 800. A direct replacement for the weak O.E.M. hood latches that bend and commonly fail, our hood latches are manufactured from 6061 billet aluminum. We eliminated all stress risers to ensure our latches will stand up to the most extreme riding conditions eliminating the chance of a failure that can lead to the hood coming loose.

Description	Part. No.
Billet Hood Hooks	TBM109

### OEM SXR HOOD AIR INTAKE BLOCK-OFF KIT

The easy solution to water slamming its way into your OEM SXR hood. This trick block-off kit will allow you to stop ingestion of water into the engine compartment, thus limiting the damage caused by racing in rough conditions, wave jumping, submarines, etc. Trick and simple!

Description	Part. No.
Intake Block-Off	03-04-001

### SUPERJET HOOD HOOKS

24-7 hood hooks are superior in design with a slotted front hole and fixed rear hole. The large docking part makes hood installation quick and easy. The curved hood pin area slides the hood to the perfect location.

Description	Part No.
Superjet Hood Hooks	BHH-001

### SUPERJET HOOD LATCH

Designed for function and style. 24-7 has created a hood latch using tight tolerances for a snug fit to keep your hood secure even under the most extreme situations.

Description	Part No.
Superjet Hood Latch	HL-001

### BILLET HOOD LATCH

Recently updated and re-machined to also fit the Kawasaki SXR800, SXI Pro all Yamaha Superjet and FX1.

Description	Part No.
Hood Latch Clear	YAAMAL501CL
Hood Latch Green	YAAMAL501GN
Hood Latch Red	YAAMAL501RD

### SXR HAND HOLD KIT MID MOUNT

SXR Mid Mount drop-in hand holds for stock hoods.

Part No.	KASRC0187
----------	-----------

### SXR HAND HOLD KIT STANDARD MOUNT

SXR forward Mount drop-in hand holds for stock hoods.

Part No.	KASRC0188
----------	-----------

### SJ96+ HAND HOLD KIT STD MOUNT

Super Jet 96+ Mid mount drop-in hand holds for stock hoods.

Part No.	YA96C0182
----------	-----------

### HAND HOLD KIT "Q" HOLD MOUNT

Universal mount drop-in hand holds are easily located on any flat surface.

Part No.	AWC0187
----------	---------

### RIVA STX-F BILLET EXHAUST TIP

Replaces plastic exhaust outlet cover. Made from billet aluminum. Anodized to prevent corrosion.

**LUSTIC KICKER FOOTWELLS**

Designed especially for all years Super Jet and the 800 SXR, these beauties have been used exclusively by Josh Lustic on his Blowsion prepared Factory Pro Kawi SXR 800. These custom molded fiberglass insets provide the room in the tray of your ski for lock down aerials.

Description	Part No.
Lustic Footwell	AWCO125

**FOOTWELLS MAC MASHERS**

No cutting of the wide SXR tray required. Design in conjunction with pro Kawasaki rider Chris MacClugage and Darren Hedlund. Experience the feel of a standard footwell cut out without having to notch out your SXR tray. 100% race legal.

Description	Part No.
Mac Footwell	AWCO126

**FOOTWELLS KLOWNERS**

Designed especially for the rider who needs MAX room in the tray. These hand-laid, molded fiberglass insets provide extended room in the tray of your ski to position your feet. Comfortably sized for large to very large feet, the Klowner footwells contour to your ankle and also feature a gentle protrusion over the top of your foot for better locking power. Built with safety and performance in mind, the Klowner footwells will keep you in your ski while inverted, and also easily let you go when you feel like you're going to need a hurried dismount to avoid facial impact on fiberglass.

Description	Part No.
Klowners Footwell	AWCO127

**2002 BINDING SYSTEM**

24-7 binding system has been redesigned for 2002, giving you the best, most comfortable hold on the market. Fits all models.

Description	Part No.
2002 Binding System	BS-001

**DIGGER AND REC MODEL FOOTWELLS**

Custom extruded and molded to fit your feet, the Dawson Digger footwell has been designed and updated for 2007. Considered a must have modification for any surf or freerider. Very similar to the Kicker above, The Digger features a recessed "notch" at the back of each footwell to allow rider to wedge foot during tail stands and surf recoveries. Our Recreational models are hand-laid, molded fiberglass insets designed larger to provided extended room for those of you with waterski size feet who don't want an external extrusion like the Klowner features. Both fit all models of stand up watercraft.

Description	Part No.
Dawson Diggers	AWCO124
Recreational Lifters	AWCO123

**UNIVERSAL BINDING SYSTEM**

24-7 new Universal Binding System (UBS) is completely new for 2003, the UBS gives you the same function and comfort as our original binding system. This system is designed to be fitted in any stand up hull (Octane, SXR-800, Pre 96 Super jet, Kawasaki 750's, 650's, 300-550's, and Yamaha Fx-1). Fits all models.

Description	Part No.
Universal Binding System	UBS-002

**AWD PRODUCTS QUICK LOOP**

A flexible tow loop is required for all watercraft of IJSBA Race. Specially designed to meet IJSBA regulation.

Description	Part No.
Watercraft with "Tow Hook"	QL-01
Watercraft with "Bow Eye"	QL-02

# CUSTOM WATER CRAFT COVERS

## Fabric: Glen-Tuf

Woven polypropylene is very abrasion resistant. Fibers resist moisture, rot, mildew and are treated for UV resistance.

Non-scratch, corrosion free access zipper for vest and wet-suit storage. Plus a quick-dry mesh bag with Velcro® closure for gloves and other small items.

Reinforced openings for trailer pins and attachments. Adjustable heavy duty, multi-strand shock cord sewn in hem.

Reflexite® safety reflectors on back of cover give additional warning notice when watercraft is moored on trailer. (Reflexite® meets both Federal and USCG specifications.)

Durable, double-stitched, overlapped seams.

Strong, bartacked tie-down loops secure cover on watercraft for trailering.

## SXR, JSU SIDE RAIL MOLDINGS

Gain the secret Pro racers edge. Get rid of those ill-fitting OEM side moldings that scrub speed and cause poor under the rail water flow during racing conditions. These are the same 1.75 inch wide molding used by the Kawasaki Racing Team.

Description	Part No.
Standup Kit Setup 98" per side	<b>JSU-800-BUMPER</b>

## SX-R TBM RACE BUMPERS

Introducing the easiest way to enhance the handling of your SX-R simply by replacing your stock bumper with our adhesive backed bumpers. These eliminate the need for rivets and narrows the bond flange increasing the lean angle of your ski. They also enhance the general appearance significantly. Also available for STXR/12F/15F.

Description	Part No.
Bumpers 800SXR	<b>TBM117</b>
STXR/12F/15F	<b>TBM117-STXR</b>

## RIVA STX/SX-R RAIL MOLDING KITS

Directly replaces the bulky, sharp-edged stock rails saving weight as well as your hands! Reduces corner drag on SX-R models. Includes rivets.

Description	Part No.
