WATERCROSS MADNESS

...A High Octane adventure seen thru the eyes of a fresh jet ski racer. This adventure takes place while touring the U.S. Grand National Watercross Championships. The story explores life through burnouts, hole shots, and insane immaturity, along with blatant disregard of self throughout the summer of 2003. Sit back and marvel at the fascinating lives of the community called Region 6.

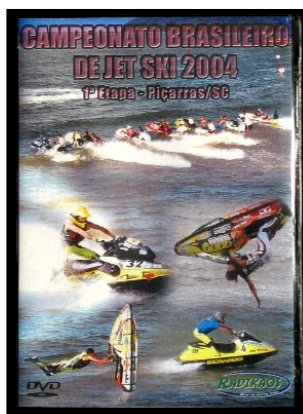

RAMPT
Eric Malone introduces "Ramp," which features the world's best watercross athletes as they attempt to launch themselves off 13 foot vertical ramps, ride the rapids of Niagra Falls, ride surf in Baja Mexico, visit England, Cancoon and more.
An example of the future of watercross!
